PROFESSIONAL SUMMARY

Java-focused IT graduate with hands-on experience in building full stack web applications using Java, Spring Boot, and MySQL. Comfortable with OOP, REST APIs, SQL, and the complete SDLC, with added exposure to Selenium automation and Agile teams. Seeking a Java Developer or Software Engineer role where I can write clean, maintainable code and grow with the team.

EDUCATION

Degree	Institution	Year Completed	Percentage / CGPA
Bachelor of Technology (Information Technology)	Bharathidasan Engineering College (Anna University)	2022 – 2026	8.43 CGPA
12th (HSE)	Tamil Nadu State Board	2022	77.33
10th (SSLC)	Tamil Nadu State Board	2020	95.6

CORE COMPETENCIES

CORE JAVA

- Strong understanding of OOP concepts (encapsulation, inheritance, polymorphism, abstraction).
- Built CRUD-based web applications using Java and MySQL.

SPRING BOOT & REST APIs

- Developing backend applications with Spring Boot using a layered structure (controller, service, repository).
- Built and integrated REST APIs with authentication and role-based access.

SQL & DATABASES

- Writing SQL queries and designing tables for CRUD operations on MySQL and PostgreSQL.

FRONTEND

- HTML5, CSS3, JavaScript, Bootstrap, and basic React for building responsive user interfaces.

TESTING & AUTOMATION

- Selenium WebDriver automation scripts in Java; functional, regression, and smoke testing.
- Understanding of SDLC and STLC; defect tracking with JIRA in Agile teams.

TOOLS & PYTHON

- Git, GitHub, Visual Studio Code, JIRA; deployment on Render and Vercel; Python with Flask.

PROJECTS

Full Stack Content Management System — Blogging Platform | Jun 2025 – Jul 2025

Java | *MySQL* | *JavaScript* | *HTML* | *CSS* | *Bootstrap*

- Developed a web-based CMS in Java and MySQL where users can create, edit, schedule, and delete blog posts.
- Built the backend with CRUD operations, user authentication, and role-based access.
- Implemented content moderation and post scheduling with a responsive Bootstrap UI.

AI-Driven Civic Complaint Management System | Dec 2025 – May 2026

Python | *Flask* | *MySQL* | *BERT* | *ResNet* | *XGBoost*

- Built an AI-enabled web platform for municipal grievance redressal with automated complaint classification.
- Used BERT for complaint text, ResNet for complaint images, and XGBoost to predict urgency and improve routing.

CERTIFICATIONS

- **Oracle Cloud Infrastructure AI Foundations** — Oracle. Covers AI/ML fundamentals and cloud-based machine learning workflows.
- **ChatGPT & Generative AI Applications** — GUVI. Practical understanding of generative AI, prompt engineering, and GPT applications.

LANGUAGES KNOWN

English, Tamil, Hindi, Kannada
